**Enrichment** Correlation

Protesson Glutathion metabolism

Basal transcription factors

Serotone gir synapse

Calcium signaling pathway

Human immunodeficiency virus 1 infection Hunting on disease

Metabolic pathways Long-term potentiation

Type II diabeles mellitus Insulin secretion

Parkinson disease

ne, aspartate an glutamate metabolism

Insulin signaling pathered biquipin medialed proteolysis

Amyerrophic lateral sclerosis (ALS)

Fluid shear stress and atheros

Glutamatorgic synapse

Prion diseases Alzheiner disease

Apoptosis

Lysosome

TNF signating pathway

Long-term depression

Chemokine signaling pathway

Cholestero metabolism
